GENERAL NATURAL GAS SERVICE
RATE SCHEDULE 49-1

EXHIBIT "A"

APPLICATION OF SCHEDULE

This schedule is applicable to natural gas service to any customer for all uses.

Natural gas supplied hereunder is for the individual use of the customer at one point of delivery and shall not be resold or shared with others.

NET MONTHLY RATE

\$1.50 per month, which includes the use of 500 cubic feet
11¢ per 100 cubic feet for the next 2,500 cubic feet
6¢ per 100 cubic feet for all additional gas used.

Whenever revisions of the city gate rate paid by United Gas Corporation are filed with the Federal Power Commission, or other appropriate jurisdictional body, the above consumer rates shall be adjusted, either plus or minus, to reflect the amount of the change in the average unit cost of gas supplied under this rate schedule above or below the average unit cost of such gas at the city gate rate in effect on the 1st day of January, 1959, such adjusted consumer rates to apply to all gas used after the regular meter reading dates falling on or after the effective date of such city gate rate change.

If, as a result of any decrease in the city gate rate, the Company receives refunds of any increased costs that have been passed on to consumers under the foregoing gas cost adjustment clause, the consumer rate adjusted as provided above which would otherwise be in effect will be reduced to effect such refund during the twelve-calendar-month period thereafter by an amount per one hundred cubic feet determined by dividing the amount of such refund by the total volume of gas sold under the above consumer rate during the twelve calendar months immediately preceding the month in which such refund is received by the Company.

Minimum Monthly Bill: \$1.50 Net

PAYMENT

The above net monthly rate increased by 10% is the gross monthly rate. All bills shall be rendered on the gross basis. The difference between the gross and net rates, representing a discount, shall be allowed for payment of bills within 10 days from date of bill.
